Answer: Arctic Tern

75. Question: What is the largest living species of lizard?

Answer: Komodo Dragon

76. Question: Which animal is known for its ability to camouflage itself by changing color?

Answer: Chameleon

77. Question: What is the smallest species of bird?

Answer: Bee Hummingbird

78. Question: Which animal is known for its ability to regrow lost limbs?

Answer: Axolotl

79. Question: What is the largest living species of turtle?

Answer: Leatherback Sea Turtle

80. Question: Which animal is often associated with wisdom in many cultures?

Answer: Owl

81. Question: What is the fastest bird in level flight?

Answer: Peregrine Falcon

82. Question: Which animal has the highest blood pressure?

Answer: Giraffe

83. Question: What is the largest living species of lizard?

Answer: Komodo Dragon

84. Question: Which animal can change its gender?

Answer: Clownfish

85. Question: What is the largest species of bear?

Answer: Polar Bear

86. Question: Which mammal has the fewest number of teeth?

Answer: Manatee

87. Question: What is the largest species of penguin?

Answer: Emperor Penguin

88. Question: Which animal is known for its ability to camouflage itself by changing color?

Answer: Chameleon

89. Question: What is the only bird that can swim but cannot fly?

Answer: Penguin

90. Question: Which animal can change its gender?

Answer: Clownfish

91. Question: What is the largest living species of marsupial?

Answer: Red Kangaroo

92. Question: Which bird is known for its ability to dive to great depths?

Answer: Albatross

93. Question: What is the only mammal that can truly fly?

Answer: Bat

94. Question: Which animal has the longest migration route?

Answer: Arctic Tern

95. Question: What is the largest living species of fish?

Answer: Whale Shark

96. Question: Which animal is known for its ability to mimic human speech?

Answer: Parrot

97. Question: What is the smallest species of mammal?

Answer: Etruscan Shrew

98. Question: Which bird is the national symbol of New Zealand?

Answer: Kiwi

99. Question: What is the fastest fish in the ocean?

Answer: Sailfish

100. Question: Which animal has the most taste buds?

Answer: Catfish

100 science trivia questions with answers

1. Question: What is the chemical symbol for water?

Answer: H₂O

2. Question: What is the closest planet to the Sun?

Answer: Mercury

3. Question: What is the largest planet in our solar system?

Answer: Jupiter

4. Question: What is the atomic number of carbon?

Answer: 6

5. Question: What is the process by which plants make their own food called?

Answer: Photosynthesis

6. Question: What is the study of living organisms called?

Answer: Biology

7. Question: What is the hardest natural substance on Earth?

Answer: Diamond

8. Question: What is the Earth's outermost layer called?

Answer: Crust

9. Question: What is the study of the Earth's atmosphere called?

Answer: Meteorology

10. Question: What is the chemical symbol for gold?

Answer: Au

11. Question: What is the center of an atom called?

Answer: Nucleus

12. Question: What is the force that attracts two objects toward each other called?

Answer: Gravity

13. Question: What is the chemical symbol for iron?

Answer: Fe

14. Question: What is the study of matter and energy called?

Answer: Physics

15. Question: What is the process by which plants release water vapor through their leaves called?

Answer: Transpiration

16. Question: What is the chemical symbol for oxygen?

Answer: O

17. Question: What is the speed of light in a vacuum?

Answer: Approximately 299,792,458 meters per second

18. Question: What is the smallest unit of matter?

Answer: Atom

19. Question: What is the unit of measurement for electric current?

Answer: Ampere (A)

20. Question: What is the study of the Earth's physical structure and substance called?

Answer: Geology

21. Question: What is the chemical symbol for sodium?

Answer: Na

22. Question: What is the outermost layer of the Earth's atmosphere called?

Answer: Exosphere

23. Question: What is the chemical symbol for helium?

Answer: He

24. Question: What is the force that opposes motion between two surfaces in contact with each other called?

Answer: Friction

25. Question: What is the study of the stars, planets, and other celestial objects called?

Answer: Astronomy

26. Question: What is the chemical symbol for carbon dioxide?

Answer: CO₂

27. Question: What is the unit of measurement for force?

Answer: Newton (N)

28. Question: What is the process by which rocks are broken down into smaller pieces called?

Answer: Weathering
