Dear Parents,  
Exciting time is here again!!!

It's time for Summer Vacation and fun filled activities. Summer vacation is the best time for learning and for nurturing creativity, for exploring places and for fun.

We at MAXIM MERRY believe that children are reservoirs of potential. It is very important to ignite their imagination, and foster an outlook that helps them imagine, explore, discover and rediscover.

The holidays homework designed would not only enhance their learning but would also be very effective in building up their reasoning and analytical skills.

Remember that Summer Vacation is the best time to connect with your children, relax and enjoy. So spend these holidays creating a nurturing and stimulating environment filled with fun, frolic, learning and education.

Best Regards,
